Authorised Training Courses

Course 102: Project Management in Primavera P6 — *P6 Release 7 Client Server*

This course provides hands-on training for Primavera's client/server based solution Participants will gain a thorough background in the concepts of planning and scheduling. Scheduling techniques will be covered. This three-day course leads you through hands-on workshops that create and track an entire project to completion. All workshops and instruction use the three basic elements of project management: schedule, resource and costs.
Course level: Basic
Targeted role: Program Managers, Project Managers, Planners/Schedulers
Additional audiences: Existing project management module users. Existing P3e/c, Enterprise, and TeamPlay users.

Course 106A: Administration in Primavera P6 and P6 Web Access — *P6 Release 7 Client Server*

This one day course provides in-depth administration management training, primarily in the Primavera client/server along with elements on web administration. A must for anyone responsible for either the installation, maintenance or management of the application. Building on skills learned on the basic 102 course, the 106A will go into detail with respect to security and user access, coding at project, resource and activity level, creating user defined fields for various sections of the application and combining it with global change.
Prerequisite: Primavera 102 Basic Course Training or equivalent experience.
Course level: Advanced
Targeted role: Program Managers, Project Managers, Super users/Administrators
Additional audiences: Existing project management module users. Existing P3e/c, Enterprise, and TeamPlay users.

Course 106P: Advanced Project Management in Primavera P6 — *P6 Release 7 Client Server*

This two-day course provides in-depth project management training in Primavera's client/server-based solution. Building off skills learned in the basic course (102), the 106-P course covers advanced subjects such as earned value analysis; updating baselines; and top-down budgeting. Hands-on workshops enable students to apply skills learned throughout the course.
Course level: Advanced
Targeted role: Program Managers, Project Managers, Administrators, Planners/Schedulers
Additional audiences: Existing project management module users. Existing P3e/c, Enterprise, and TeamPlay users.

Course 106R: Resource Management in Primavera P6 — *P6 Release 7 Client Server*

This two-day course provides in-depth resource management training in Primavera's client/server-based solution. Building off skills learned in the basic course (102), the 106-R course covers advanced topics in managing resource allocation, future-period bucket planning and resource leveling. Extended workshops at the end of each day provide an opportunity to apply new skills and functionality.
Course level: Advanced
Targeted role: Resource Managers, Program Managers, Project Managers
Additional audiences: Existing project management module users. Existing P3e/c, Enterprise, and TeamPlay users.

Course 101: Project Management in Primavera P6 Web Access — *P6 Release 7 Web Access*

This three-day course provides hands-on training for Primavera's Web-based solution. Participants will create a project, create activities and relationships, customise activity views, assign resources, adjust the project plan to account for schedule delays and overallocated resources, and analyse portfolios. Participants also will customise dashboards. Hands-on workshops help students create and track an entire project to completion.
Course level: Basic
Targeted role: Program Managers, Project Managers
Additional audiences: Existing myPrimavera users

Course 107: Resource Management in Primavera P6 Web Access — *P6 Release 7 Web Access*

This one day course provides hands-on training for Primavera's Web-based solution. Participants will gain a thorough background in the concepts of resource management by adding a resource to the enterprise resource pool; planning for resource needs in future projects; staffing resources on current projects; and managing resources to ensure they are fully utilised. Extended workshops provide an opportunity to apply new skills and functionality.
Course level: Basic
Targeted role: Resource Managers, Project Managers
Additional audiences: Existing myPrimavera users
