

108: Migrating from P3 to Primavera P6

Duration: two days

This course is specifically designed for users moving from Primavera Project Planner (P3) to P6. Numerous charts list how P3 fields and functionality map to Primavera 5.0/6.0, enabling users to leverage their existing knowledge of P3 and rapidly adapt to new features in P6. The course begins with navigation, menus, and terminology in P6, and introduces new ways to view layout and run reports. An appendix at the back of the menu covers how to convert projects from P3 to P6.
